

HONGIRANA CHARITABLE TRUST

SPONSOR PROPOSAL & TRUST PROFILE

Our Mission:

To illuminate young minds by providing long-term, complete academic, financial, and medical support to highly deserving students from underprivileged backgrounds, enabling them to break the cycle of poverty and become pillars of our society.

Who We Are & Our Journey

Hongirana Charitable Trust was established in 2017 in Mandya, Karnataka, by a group of passionate, like-minded individuals driven by a single guiding light: no deserving child should be forced to abandon their academic dreams due to financial hardship.

Over the past decade, the Trust has quietly worked on the ground, connecting generous donors directly with brilliant scholars from government schools and low-income families. We do not just hand out one-time awards; we take on complete responsibility for our scholars.

Our Guiding Policy

"Once sponsored, sponsored till graduation." We believe true empowerment requires commitment. When Hongirana adopts a scholar, we commit to funding their complete course — including tuition fees, exam fees, mess fees, room rent, and textbooks. This gives our scholars the mental peace and emotional stability needed to excel in rigorous professional courses like MBBS, Engineering, and Nursing.

No Administrative Leaks: 100% of all public contributions go directly to student sponsorships, classroom material, and healthcare. All administrative and operational overheads of the Trust are fully borne by the founding trustees themselves.

Our Three Pillars of Impact

1. Long-Term Education Scholarships

Our core program funds complete professional degrees (MBBS, B.E., B.Sc. Nursing) for brilliant students from rural backgrounds who cracked competitive exams but could not afford the fees. We provide complete financial coverage so they can study with dignity.

2. Healthcare Aid & Medical Camps

We regularly organize specialized health camps, pediatric screenings, thalassemia screening, HLA typing camps, and provide critical medical equipment (prosthetic limbs, hearing aids) to children with special needs in rural Mandya. During the COVID-19 second wave, we donated critical ICU supplies and 700+ nutrition packages.

3. Government School Reform (Humanity)

We believe early childhood classrooms should be vibrant and stimulating. Hongirana completely refurbishes government primary school 'Nali-Kali' rooms (grades 1-3). We install child-friendly furniture, educational paintings, whiteboards, and interactive teaching aids to elevate the public education experience.

Transformational Stories of Change

Dr. Shashank B M — MD General Medicine, MIMS Mandya

Once a rural scholar sponsored by Hongirana for his MBBS degree, Dr. Shashank successfully completed his studies and is now pursuing MD General Medicine. Completing the beautiful circle of giving, he is now an active donor to the Trust, sponsoring another underprivileged child's dreams.

"The lamp that was lit for me now lights the way for another child."

Dr. Spoorthi Madhu — MBBS & Alumna Contributor

Dr. Spoorthi completed her MBBS at CIMS Chamarajanagara. Hongirana took care of all her living, book, and mess expenses throughout her 5 years of study. Now a fully qualified doctor, she contributes a portion of her stipend back to the Trust to help future scholars.

"Each time I ate in the mess, each time I read my books, I used to remember Hongirana."

Dr. Ashpak M Manigar — MBBS Graduate

The son of a cancer patient from Nargund, Dr. Ashpak successfully completed his MBBS and internship at CIMS. Hongirana supported him entirely. When he had a major medical accident requiring middle ear surgery that couldn't be arranged locally, the Trust sponsored and coordinated his complex surgery at Mandya, fully restoring his hearing.

Dr. Manasa K S — MBBS Graduate

Supported by Hongirana throughout her clinical training and MBBS, Dr. Manasa completed her internship at CIMS. Free from financial anxiety, she focused entirely on medical training and is now practicing medicine with confidence.

Sponsor a Scholar & Join the Family

We invite individuals, corporates, and institutions to join us in this mission. You can sponsor a scholar partially or fully. We provide transparent annual reports detailing your sponsored scholar's academic and emotional progress.

Sponsorship Tier	Annual Cost	Impact Description
Scholar Mess & Books	■ 25,000	Covers complete nutritious food and academic books for 1 medical/engineering student.
Professional Tuition Fees	■ 50,000	Covers entire government college tuition fees for 1 professional course student.
Primary School Reform	■ 75,000	Transforms 1 rural government primary school classroom with standard child-friendly equipment.
Complete MBBS Sponsorship	■ 3,50,000	Complete coverage of a doctor's entire 5.5-year academic and residential journey.
